

LCH Boiler 600

London Climate Hire's Boiler 600 is enclosed in a steel container for added security and weather protection. Additionally, the container facilitates portability by allowing the unit to be readily positioned with a forklift truck or crane and connected to a customer's system, providing a quick rental setup.

The compact system is designed to be powerful, providing low temperature hot water for demanding applications. Connections are accomplished quickly and securely using flexible high temperature hoses fitted with PN16 flanges. Available in low and high pressure versions with a maximum operating pressure of 4 Bar and a maximum operating temperature of 90°C.
